

Bikes Abroad are a Melbourne based motorcycle freight specialist that focus on the international movement of motorcycles for individuals and tour groups. In the very near future you will begin to see our advertisements in the motorcycle press as we ramp up our activity in the Australian and New Zealand markets.

Our freight forwarding and Customs specialists can efficiently and competitively handle the movement of your motorcycle around the world and guide you through all of the necessary documentation and logistics involved to ensure that we always meet or exceed your expectations.

We are particularly interested in looking after tour groups and can offer significant cost savings when multiple motorcycles are shipped to one destination. We are also a full service provider and can arrange the shipping of one or many motorcycles to virtually any destination in the world and then on-ship to the next destination when the tour is completed or to continue onto another continent. Many motorcycles are now being bought overseas via on-line auction sites such as eBay but the difficulty remains in moving the motorcycle to a seaport, arranging the crating and shipment, import approvals and clearance when the machine arrives in Australia. Our staff will arrange all of this with just one telephone call and take all the worry out of moving the motorcycle.

We hope that we may be of service to you in the future but in the meantime we invite you to visit our website at [www.bikesabroad.com.au](http://www.bikesabroad.com.au) If you have any questions or require any assistance please do not hesitate to contact me directly.
