

Barry Deeth has a limited number of Vintage Ariel White and Poppe type barrels for sale. Barrels are being sold machined for all fittings, with the exception of the piston. Bore is machined at the bottom only so the barrel can be accurately machined to fit the piston. Price of machined barrel is \$800. Contact Barry Deeth on (07) 32661548

Above picture shows a machined barrel alongside a non-machined barrel. Bottom pictures show a view of the bore of both the above barrels.
